IMPORTANT.—A map or sketch showing the location of your post office must be submitted with the return of this paper. A printed map, such as prepared by the county or city engineer, is preferred, if it can be furnished without expense to the Department. Be sure, however, to mark on it the exact site of the post office, placing a small dot in the proper square or block and on the proper side of the street.

If a separate map cannot be furnished it is necessary to submit a sketch as described below.

These diagrams are furnished simply to make it easier to draw a sketch that will show correct distances from your post office.

SQUARE DIAGRAM

Use this diagram if your post office is located in an area described by section, township, and range, and you have filled in line 3 on the other side. Otherwise use the circular diagram.

Place a small dot representing your post office in the proper quarter-section and fill in the blanks for township and range numbers.

Then draw the following features: (Note that one-half inch on the paper equals 1 mile on the ground.)

- Adjacent post offices (show with small dots and name).
- Railroads (show by single line with cross marks; name).
- Highways (show by double lines close together and mark U. S. and State numbers; name in margin the post office to which each road leads).
- Rivers, creeks, lakes, etc. (show by wavy lines and name).
- County line (show by dashes).

CIRCULAR DIAGRAM

Use this diagram if your post office is NOT located in an area described by section, township, and range.

Let the dot in the center of the circle represent your post office.

Then draw the features a, b, c, d, and e, as described above. (Note the scale of this diagram: One-quarter inch equals 1 mile.)

Scale: $\frac{1}{4}$ inch equals 1 mile

Post Office Department,

OFFICE OF THE FIRST ASSISTANT P. M. GENERAL,

WASHINGTON, D. C., 22 Nov, 1880.

SIR: Before the Postmaster General decides upon the application for a new post office at Barton, County of Belmont, State of Ohio at which you are recommended for postmaster, he requires that the blanks in the following statement be filled, and the questions carefully and correctly answered, verified by your signature, certified by a neighboring postmaster, and returned to this Department, addressed to me. The contractor should be informed of this application; and if the site of the proposed office be off the mail route, you will forward his certificate as to the practicability of supplying it, and also as to the increase of distance. If the proposed office is not on any route now under contract, it can only be established as a "Special Office," to be supplied without expense to the Department other than net proceeds.

Be careful to designate the post offices by their true official names; and answer the subjoined queries fully and accurately, or the case will not be acted upon.

Very respectfully,

JAMES N. TYNER,
First Assistant Postmaster General.

To Mr. _____

care of the Postmaster of _____, who will please forward to him.

STATEMENT.

The proposed office to be called

Barton

Select a short name for the proposed office, which, when written, will not resemble the name of any other post office in the United States.

It will be situated on the S.W. quarter of Section Twenty Four, Township Six Range Three, in the County of Belmont, State of Ohio

It will be on or near route No. _____, being the route from Bridgeport to Uhrichsville, on which the mail is now carried Six times per week, by the Cleveland, Tuscarawas Valley and Wheeling Railway Company

The contractor's name is said Railway Company

Will it be directly on this route?—Ans. Yes, at a regular Station of said Road

If not, how far from, and on which side of it?—Ans. Exactly at it on north side

How much will it INCREASE the travel of the mail one way each trip?—Ans. Nothing

Where will the mail leave the present route to supply the proposed office?—Ans. X

Where intersect the route again?—Ans. X

What post office will be left out by this change?—Ans. None

If not on any route, is a "Special Office" wanted?—Ans. X To be supplied from _____

The name of the nearest office to the proposed one, on the same route, is Cape Mansport Valley Blaine its distance is four miles, in a north east direction from the proposed office.

The name of the nearest office on the same route, on the other side, is Maynard its distance is four miles, in a westerly direction from the proposed office.

The name of the nearest office to the proposed one, not on this route, is Cape distance by the most direct road 1 1/2 miles, in a north east direction from the proposed office.

The name of the most prominent river near it is Ohio River

The name of the nearest creek is Wheeling Creek

The proposed office will be nine miles from said river, on the west side of it, and will be on ~~miles from~~ said nearest creek, on the north side of it.
